

Gowtham Munirathinam

E-mail: gowtham8693@gmail.com

Mobile Number: +91-9543609346

Career Objective:

To build a career in design, implementation and troubleshooting of Networks and constantly learning the technologies at the same time give me an opportunity to improve my skills by working with the best professionals.

Work Experience

Organization	Role	Duration
ABI Showatech India Pvt Ltd.	Apprenticeship Trainee	JUL 2014 – MAR 2015
Adecco India Pvt. Ltd	Network Engineer	MAR 2015 – OCT 2016
Team Lease Services Pvt LTD	Executive	OCT 2016 – SEP 2021
Teleindia Network limited	L1 Engineer	OCT 2021 – DEC 2022
Wipro LTD (AT&T)	Senior Analyst	DEC 2022 – May 2024
Mphasis Limited	Principal Infra Engineer	May 2024 – Till Now

Experience Summary:

- 10 plus years of experience in Network engineer, including hands-on experience in deployment, support, installation and analysis for a broad range of LAN / WAN using both Cisco and Aruba wireless.
- supporting FedEx Client network infrastructure & Data centre operations.
- Experience in managing DNS request to add the server & delete the server.
- Experience in raising the change request for trouble shooting.
- Coordinating with client for switch migration & Application migration activity.
- Handling Infoblox for new server & new switches Ip release & IP Removal, DNS Related activities.
- Handling Change Task & Service Task & Generic request rectify the issue.
- Supporting store network infrastructure for retail customer across globe.
- Experience in Configuring and troubleshooting router, switch, Aruba access point and Data center network devices.
- Experience in Configuring and staging for Aruba access point in Aruba central.
- Experience in (Aruba) Wireless Access point and Wireless LAN controller, Site Survey

-

- Experience in Field level Troubleshooting for Aruba Access points and Switches.
- Troubleshooting Wi-Fi related issues & Aruba central related issues.
- Experience with Customer service and discussion about the Aruba Wireless Deployment.
- Coordinating with the Field Technicians for connectivity related issues and Guiding Techs for troubleshooting.
- DHCP and Switch port configuration for Aruba wireless. & troubleshooting.
- Experience with Cisco switches migration and Services Testing.

Processed incoming maintenance requests on a 7 x 24 basis, determined if dispatch is required, and followed through to ensure dispatch has been scheduled.

- Proactively assists internal/external businesses and end users to avoid or reduce problem occurrence. Clearly articulate, recommend, and explain resolutions to clients.
- Keeps detailed documentation during installations, configuration changes, and troubleshooting procedures.
- Experience in working with Cisco Nexus 9k, 3k Switches and Virtual Port Channel configuration.
- Design, implementation and operational support for Data center environments including BGP, OSPF, EIGRP ARUBA WIRELESS, Etc.
- Working Experience with Cloud team for the Network configuration & Troubleshooting.
- Work experience as a customer support, Technical Support
- I have Excellent problem-solving and communication skills and Ability to provide step-by-step technical help, both written and verbal
- Experience in the area of Technical Implementation/Support, Project Management, System Administration, Networking and end-to-end Infrastructure Management.
- Experience working with Cisco IOS, IOS-XR, NX-OS for configuration troubleshooting routing protocols: OSPF, EIGRP, RIP, BGP.
- Execution of projects, Integration, Upgradation, Migration, developing and optimization of Networks and maintaining networks.
- Positive and creative thinking, easily adaptable with good communication skills and self- motivated as a team member and also with good ability to lead a team.

Professional Summary:

Organization : Mphasis Limited

Professional Summary:

Organization : Wipro LTD

Designation : Senior Analyst

Experience : From DEC 2022 to May 2024

Client : A T & T and Ross Dress for less.

Roles and Responsibilities:

- Supporting store network infrastructure for retail customer across globe.
- Experience in Configuring and troubleshooting router, switch, access point and Data center network devices
- Experience in (Aruba) Wireless Access point and Wireless LAN controller, Site Survey
- Experience in Field level Troubleshooting for Aruba Access points and Switches.
- Troubleshooting Wi-Fi related issues & Aruba central related issues.

Experience with Customer service and discussion about the Aruba Wireless Deployment.

- Coordinating with the Field Technicians for connectivity related issues and Guiding Techs for troubleshooting.
- DHCP and Switch port configuration for Aruba wireless. & troubleshooting.
- Experience with Cisco switches migration and Services Testing.
- Processed incoming maintenance requests on a 7 x 24 basis, determined if dispatch is required, and followed through to ensure dispatch has been scheduled.
- Proactively assists internal/external businesses and end users to avoid or reduce problem occurrence. Clearly articulate, recommend, and explain resolutions to clients.
- Keeps detailed documentation during installations, configuration changes, and troubleshooting procedures

Professional Summary:

Organization : Teleindia Networks.

Designation : L1 Engineer-Projects

Experience : From OCT 2021 – DEC 2022

Client : Cisco Networks.

•

Roles and Responsibilities:

- Experience in working with Cisco Nexus, Implementation & Deployment in Telecom Network.
- Experience in Basic Configuration for Data Centre environment.
- Responsible for overall configuration implementations and policy installations across all platforms during maintenance windows including, major enterprise network.
- Design, implementation and operational support in Data center environments including BGP, OSPF, EIGRP Etc.
- Working Experience with Cloud team for the Network configuration & Troubleshooting.
- Experience in the area of Technical Implementation/Support, Project Management, System Administration, Networking and end-to-end Infrastructure Management.
- Experience in working with Cisco ACI, Implementation & Migration, Deployment, and Cisco Nexus 9k, 3k Switches and Virtual Port Channel configuration
- Experience working with Cisco NX-OS for configuration troubleshooting of routing protocols: OSPF, EIGRP, RIP, BGP.
- Knowledge of implementing and troubleshooting complex layer 2 technologies such as VLAN Trunks, VTP, Ether channel, STP, RSTP and MST. Implementation of HSRP, VRRP for Default Gateway Redundancy.
- Experience in Configuring, upgrading and verifying the NX-OS operation system.

Experience with upgrading NX-OS to version 7.9 on the cisco Nexus 9K.

- Experience with converting Extreme to Cisco Nexus in the data center environment.
- Deploying and decommission of VLANs on core Nexus 9K, 3K and its downstream devices.
- Cisco Routers Configure new routers Trouble shooting routing protocol (BGP, OSPF, Static Routing) Trouble shooting router connections (MPLS)
- Design, implementation and operational support of routing/switching protocols in complex environments including BGP, OSPF, EIGRP, Spanning Tree, etc.
- Wrote NX-OS upgrade procedures and Pre/Post checks for customer production upgrade.
- Strong interpersonal, collaboration, customer service and decision-making skills, with ability to manage multiple simultaneous projects and priorities in a fast-paced environment while demonstrating accountability.

Organization : Team Lease Services Pvt LTD

Designation : Executive ISP Operation

Client : Tele sonic Networks Pvt. Ltd - Bharti Airtel

Experience : From OCT 2016 – SEP 2021

Roles and Responsibilities:

-

- Hands on experience in Cisco routers Cisco ASR903, ASR9010, ASR920, NCS540 and Huawei HAT905 router.
- SDH Network: Ciena6500, 5410, 5430, ECI XDM2000, XDM100, BG-64, BG-30, Tejas1600, 1500, 1400, 1270, ADR2500, ADR155C.
- Deployment, Implementation, testing and troubleshooting on Service in CEN, SDH & Metro Core backbone networks.
- Working with Cisco Vendor TAC team for bug fixes and for faulty device replacement on CEN networks.
- Expertise on Backhaul Equipment (Digital Subscriber Line Access Multiplexers (DSLAM)).
- Working with SDH network Vendors TAC team for Hardware/software issues for trouble shooting.
- Networking Tools: One Control, site Manager (Ciena 6500), node Manager (Ciena 5400), Putty (CEN), HIT NMS (ADR).
- Up gradation on CEN CORE/AGG/ACCESS Network for reduce the network utilization for smooth operation in network.

Organization : Adecco India Pvt. Ltd

Designation : Field Engineer, ISP O&M

Experience : Form MAR 2015 to OCT 2016.

Client : Tele sonic Networks Pvt. Ltd - Bharti Airtel

Roles and Responsibilities:

- Installation and Commissioning of ALU 7330, ALU7302, Huawei 5600, 5603 Dslam and Voice Equipment's.
- Installation and Commissioning of Cisco ASR903 and Cisco ASR9010 in all TNL network in Chennai as a part of new project.
- Installation and Integration of SDH from Tejas, NSN, Ciena and ECI.
- Coordinating with CNOC/UNOC for resolving Trouble Tickets raised in DSL, Voice and Transport Network.
- Responsible for Preventive Maintenance of all ISP Equipment's in Chennai Network.
- Responsible for Network Uptime in ISP network.
- Having Knowledge in Ciena, Cisco, ECI, Tejas, ADR network equipment's.

PROFESSIONAL CERTIFICATION:

- Completed certified course for Computer Hardware and Networking.
- Completed certified course for CCNA- Cisco Certified Network Associate.

ACADEMIC CERTIFICATION:

- **GRADUATION:** Diploma (Electronics and Communication)
- **COLLEGE:** SRI Bharathi Velu Polytechnic College.
- **GRADUATION:** 10th std
- **SCHOOL:** Good let Hr Sec School, Sholinghur, Tamil Nadu.
