PROFILE

- NOC Engineer in Vodafone Idea with 8+ Years Experience OPTICS & MW Team where i check and rectify fault in different media like ECI, Nokia, Huawei and Tejas to provide smooth and fast service to end user.
- Service provisioning in ECI NPT/SDH/DWDM and Huawei SDH/MW.
- Login Nokia/Cisco router to check BGP/ISIS state, VRF, Routes from T3/T4/T5, ARP
- Rectify fault in different media to restore service and reroute the path for faster restoration of service.
- O&M Engineer with Tata Communications Ltd, capable of handling assignments ranging from Optical Fiber, DWDM, Equipment Installation and Maintenance with Troubleshooting.
- Experience in Installation, Transmission, and maintenance with implementation of predictive, planned & preventivemaintenance practices.
- Cisco, Juniper switch and router installation at customer premises.
- Splicing, HDD, OTDR, Fiber cable Pulling/Blowing.
- Aerial fiber cable lying Equipment handled OTDR, Power Meter, Multi Meter, Splicing Machining

SKILLS

DWDM, OTN, CWDM, NLD,
SDH, PDH, Optics, NMS,
EMS, MS office, Visio,

PROFESSIONAL EXPERIENCE

NOC Engineer

Essence Global Services Pvt Ltd Jan 2024 - Present

- Strong knowledge of optical transport network (SDH/PDH/DWDM/OTN/MW).
- Hands-on experience with NMS/EMS on optical multiplexer DWDM (Huawei, ECI, Nokia, ZTE) and SDH multiplexer (Huawei, ECI, Tejas, Fibcom, Zte) at VIL Network.
- Provisioning of VPLS, Composite, P2P, MP2MP & PWE3 Service.
- Topology, ODU creation & optimization.
- Server trail Migration & Tunnel shifting.
- Traffic Shifting TDM, SDH & packet.
- Trail, Tunnel, service Creation & Deletion.
- Bandwidth Upgradation, KLM Mapping Huawei to ECI 1:1.
- Lambda Addition (MR4/MR8/OBU Insertion) & Node Insertion & Bypassing OTN & SDH layer.
- Performing end to end provisioning, testing & troubleshooting of circuit (IP, VPN, private lease line / wavelenth services.
- End to end configuring/ Provisioning, testing & troubleshooting on NMS/EMS.
- Testing on troubleshooting on Layer 1 and Layer 2 (Ethernet, 1G, 10G, 100G, STM1, STM4, STM16, STM64, E1/T1).
- Acted as L2 support in confidential performing RCAs & trouble ticket handling.
- Performed mobile network transport monitor for 2G/3G/4G networks.
- Prepared DCN design & plan for microwave networks.
- Prepared technical sotution document as pre sale support for RFP.
- Ability to lead and train function & cross function teams.
- Network diagram creation HLD,LLD & SFD on Visio.

NOC Engineer

Vodafone Idea Ltd. (Pay roll on Quess Corp) *Dec 2022 - Dec 2023*

- Check E2E media to find fault in circuit. Resolving fault and get SA TT for the resolution in case of fiber cut.
- Check E2E media for RFO case and provide RCA to customer.
- Check L2/L3 services for mobility part also. {2G/3G/4G}
- Coordinate with CEN, PEYTO and MPLS team for any issue in NNI/Latency/changing NNI.
- NMS Login ECI NPT (1050, 1200, 1250), ECI SDH & Huawei SDH/MW.
- Live troubleshooting.
- Troubleshooting of SA & NSA cases.
- Responsible for ensuring minimum trouble tickets and timely resolutions
- Link Shifting, Link creation, Traffic Shifting, Port Shifting & VLAN Add.
- such that the number of escalations is under control •Find RFO.
- ECI & Huawei Software upgrade.
- Trail Reroute/modification.
- Responsible for End-to-End Troubleshooting.
- Loop apply & test.
- Good Emailing Skills with knowledge of using Outlook.
- Follow the escalation process.

NOC Engineer (NSG TAC1)

Bharti Airtel Ltd. (Pay roll on V5 Global) *Jul 2022 - Nov 2022*

- Check E2E media to find fault in circuit. Resolving fault and get SA TT for the resolution in case of fiber cut.
- Check E2E media for RFO case and provide RCA to customer.
- Coordinate with NOC NS, NSSA and NOC SND for fiber cut, unmanaged node or manageability of node/media.
- Check L1/L2 case of P2P, P2MP.
- Check L1/L2 services for mobility part also. {2G/4G/5G}
- Login and check basic commands in Cisco/Nokia (T4/T3) router like routes from T5/T4/T3, ARP, RT value, BGP and ISIS state, ping for sites.
- Coordinate with CEN, PEYTO and MPLS team for any issue in NNI/Latency/changing NNI
- Provisioned L2 circuit in ECI NPT and SDH.
- NMS Login ECI NPT (1050, 1200, 1250), ECI SDH TNG/ANG, Tejas SDH/OTN, Huawei 40G, Metro-core and OTN.
- Check and login NOKIA OTN PSS32/PSS64 to check latency in ODU.

NOC Engineer

Indovision Services Pvt Ltd. *Dec 2021 - Jun 2022*

- Generated network performance reports as prescribed.
- Implemented and communicated systems and procedures.
- Monitored network devices like SDH (ZTE, TEJAS, FIBCOM), DWDM(ZTE)
- Alarm Monitoring and Fault Rectification (ZTE, TEJAS, FIBCOM)
- Link connectivity and user labelling in Links.
- Open Tickets of faults.

Transmission Engineer

Nokia Solutions Networks (Pay roll on GI-Group,Quess Corp,Vedang,STCS & Elolve) *Feb 2015 - Nov 2021*

- Installation & Commissioning of various SDH/DWDM Product and Knowledge of various concepts of SDH and equipment's like.
- HUAWEI SDH & DWDM (OSN- 550, 1832X16, OSN6800, OSN8800, OSN9800 BSW 1600G)
- ECI (BG 20B, 30B, XDM 500, XDM100, XDM300)
- Rectify all alarm of transmission equipment.
- Done local & NMS login of various mux as mentioned to monitor & clear of alarm & faults.

- Operation and Maintenance of CISCO Router (C7606, C7609 & ASR903)
- Operation and Maintenance of Huawei Router (ATN910)
- Implementing connectivity solutions for Small, Medium, and Enterprise Customers.
- Testing of Multiplexer at different STM levels. Testing includes Tx power, Rx power, overload of various OTRs on different levels, SIM and SAM modules, alarms handling etc.
- Quality Of Service testing. (End-To-End Throughput testing).
- Performing Preventive Maintenance of all the Transmission Equipment's (MUX & CISCO Router) at BTS and BSC location as per schedule.
- NMS visibility of Node & Stability Testing.
- Vodafone Idea Traffic shifting ECI to New Huawei Nodes.
- ATP of NODES. / Performing acceptance, analysis, test for customer.
- Initial Testing of Parameters like TX/Rx Optical Power, Overload, Sensitivity, Operation & Support and Linking Up with Uploading in NMS.
- Site Survey.
- Ensuring smooth operations and maintenance of the communication networks for providing operational support to communication Companies. IOS Up-gradation field support for CISCO & Huawei Router.

EDUCATION

10TH

Nehru High School Telo, Bokaro *Apr 2005 - Mar 2006*

- 10th with First class in year 2006 J.A.C.Ranchi from Nehru High School Telo (Bokaro).

Diploma

Al-Kabir Polytechnic, Jamshedpur *Jun 2007 - Apr 2010*

- Diploma Engineering (CS & Engg) Passed in 2010 S.B.T.E Jharkhand from Al-Kabir Polytechnic (Jamshedpur) with first class.

B.Tech

RP Sharma Institute of Technology, Patna *Aug 2012 - May 2015*

- B.Tech (Electronics & comm Engg) Passed in 2015 Magadh University from R.P Sharma Institute of Technology (Patna) with first class.

LANGUAGES

ENGLISH , HINDI

HOBBIES

Playing Cricket, Listening Songs, Internet Surfing

TRAINING

- Trained on Huawei SDH, DWDM Transport Concepts... organized by NOKIA NETWORKS.
- CISCO CCNA TRAINING FROM NETWORK KINGS.
- Trained on Cisco product like ASR-903, 7606, 7609..
- HSW training completed... organized by VODAFONE.
- First AID Training.
