IT SKILLS

- HPSM, SAP
- Xshell, Putty, Com Prompt
- Computer Hardware & Software
- NOC apps, O&M Apps
- Knowledge of MS-Office
- E mailing

CORE COMPETENCIES

- Project Management & E2E rollout
- Operation and Maintenances
- Equipment Installation and Commissioning
- Router configurations
- Troubleshooting
- Team Leadership & Cross-Functional Management
- Strategic Planning & Execution
- Customer Centric Mindset

- o Ownership & Operational Excellence
- o Performance Monitoring & Optimization
- o Training, Coaching & Team Motivation
- o Logistics & Supply Chain Coordination
- o Stakeholder Relationship Management
- o Network Development

EDUCATION

- o Bachelor in Electrical Engineer, Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Bhopal (M.P.)
- o Diploma in Electrical Engineer, Rajiv Gandhi Proudhyogiki Vishwavidyalaya, Bhopal (M.P.)
- o 12th in PMC, M.P. Board Bhopal (M.P.)
- o 10th M.P. Board Bhopal (M.P.)

CERTIFICATIONS

- o DCA for NICT Jabalpur (M.P.)
- o Promoted from Mast Execution Engineer to City Construction Manager in April 2014, recognizing consistent leadership and performance.
- o Multiple times top Performance in monthly ranking circle/ National level.

Equipment Use

- o Nokia OLT & Radisys OLT, Cisco Router, Switch, MDS, EDS.
- o Equipment such as OTDR, LSPM, VFL, Locater, UBR and splicing machines.

SOFT SKILLS

- o Leadership & Team Motivation
- o Effective Communication
- o Relationship Building & Client Management

NWA.

Sterlite Technology Ltd. | Assistant Manager (BBNL Project) | Feb 2019 – Mar 2021

- Managed end-to-end BBNL Project across 5 Taluka in Akola district.
- Working s a Cluster SPOC (Fiber construction and O&M)
- Effectively managed 51 team group of field Engineer, DET, MIS, ROW & infra Engineer and 15+ vendors.
- Successfully Executed 1920 Km Fiber network planning & Execution, fiber rollout construction work and integrated 5 Block's and 376 Gram panchayat construction of OFC and Operation & Maintenance under BBNL Project MH circle.
- Cross-functional coordination with team and Clients for validation of executed T&D work & documentation (ITP sign off)
- Task allocation to vendor and Team & follow-up forget the work done in targeted time period
- Site infra installation, active equipment/router installation, configuration and testing.
- Facilitate RoW permissions by preparing area/location maps and follow-up regularly with the designated team/Government Authority
- Periodically quality audit & site safety audit as per SOW
- As a cluster SPOC responsible for Fiber Network Planning and Execution & Fiber Operation & Maintenance, Active & Passive Material Management in co-ordination with warehouses, site Acceptance testing & HOTO and Vendor billing sign off as per BOQ.

Reliance 4G Project (HFCL) | City Construction Manager | April 2014 – Feb 2019

Promotion from **Mast Execution Engineer to City Construction Manager**

Reliance 4G Project (HFCL) | Mast Execution Engineer | June 2013 – April 2014

- Working as a Project Manager while ensuring Project Roll out timely, tracking projects and share output details and updating with Circle team, preparing monthly reports on a delay basis and submitting Project Manager.
- Coordinating with the RE and ROW team for new route and tower permission and timeline DN submission, Facilitate ROW permissions by preparing area / location maps and follow-up regularly with the designated team, conduct periodic audits/ reviews by visits to customer premises and provide quick resolutions to issues and escalations
- Planning of fiber route network feasibility for new network rings and LM for tower connectivity (bandwidth, access ring, fiber pair availability, last mile SOW) and closing order with capex for POP installation and new sites & customer delivery, allotting work to vendors & coordinating to get the work done in targeted time period.
- Trenching of different type of soil with proper standard measurements with HDD Machine for fiber blowing, supervising manual and automated Trenching, Ducting and Blowing with DIT machine.
- Coordinating with Vendors and complete Tower civil foundation and Tower installation, equipment Installation & commissioning, observation of signal losses and optimization, Optical fiber splicing/termination and fiber testing using OTDR tool.
- End-to-end link testing with power meter and optical link loss budgeting, acceptance Test (AT) process, billing of vendor in measurement book and Material RECO.

Sai Sudhir Infrastructure Ltd. | Project Engineer | June 2011 – May 2013

- Working as a Project Engineer while ensuring Vendor quality of work timely, tracking projects, updating and report submitting to Project Manager.
- Checking Pole feasibility for new HT line and equipment civil foundation, site visit, Pole installation plan, Civil foundation layout and construction work as per QMS
- Conducting preliminary survey for the 33/11KV SS to 220kv station for line pole

- o Problem-Solving & Decision Making
- o Adaptability & Resilience

PERSONAL DETAILS

Address: H. No. 81, Behind Jain Mandir Naya Bazar No.- 2, Damoh Dist.-Damoh-470661 (M.P.)

Languages Known: English, Hindi

Date of Birth: 13 April 1985

- installation, equipment installation and testing.
- Coordinating with vendor permission and timeline of DN submission
- Material consumption, Measurements and New MIN and Vendor Billing / Material RECO.
