Gurugram - 122002, Haryana

EDUCATION

2013

B.Tech. (Electronics and Communication)
Sam Higgin Bottom Institute of Agriculture,
Technology & Science, Prayagraj, UPTU

CORE COMPETENCIES

- IT Infrastructure Management
- Telecommunications
- Network Architecture Design
- Service Level Agreement (SLA) Compliance
- Cross-Departmental Collaboration
- Emerging Technology Trends
- Cybersecurity
- Network Operations Center (NOC)
- Business Continuity Planning
- Technical Team Leadership

TECHNICAL SKILLS

Networking Technologies:

- Cisco Technologies
- Juniper Technologies
- Velocloud SDWAN
- Cisco ASR 9010 (IOS-XR)
- Cisco ASR 901 & ASR 920 (IOS-XE)
- Nokia Routers
- Ericsson SE 1200
- Cisco Edge Routers
- DSLAM
- SRST
- Cisco 7600 Series
- L3 Switches

Network Management & Security Tools:

- SNOW (ServiceNow)
- NGSD
- NNMI (HP Network Node Manager i)
- HPNA (HP Network Automation)
- CyberArk

Infrastructure & Operations:

- AP (Access Points)
- Routers

Saket Mishra

Technical Specialist

JOB OBJECTIVE

Possess extensive experience in the fields of **IT Networking** and **Telecommunications**, contributing to the success of various high-profile organizations, aiming to leverage extensive expertise in **Network Security** and **Systems Administration** to drive **innovation** and **operational excellence** in a forward-thinking organization.

PROFILE SUMMARY

- Over a decade years of experience in **IT networking and telecommunications**, specializing in designing, implementing, and managing **complex network infrastructures** for high-profile organizations.
- Worked as a **Technical Specialist at Exame Technologies**, overseeing the **deployment, configuration, and optimization** of **SD-WAN solutions**, ensuring **seamless connectivity and operational efficiency**.
- Strong background in **network security, service delivery management, and incident management**, with a deep understanding of **network operations, troubleshooting, and performance optimization**.
- Led the **NBS Project in Swindon, UK**, achieving a **30% reduction in incident resolution time** by implementing **proactive monitoring strategies and process enhancements**, significantly improving **service reliability**.
- Expertise in **risk assessment, disaster recovery planning, and business continuity strategies**, ensuring **network security, stability, and compliance** with industry standards.
- Proficient in industry-leading technologies**, including **Cisco and Juniper systems**, with hands-on experience in **routing, switching, firewall management, and network automation** to optimize infrastructure performance and security.
- Showcased **strong leadership skills** by effectively managing **cross-functional project teams**, facilitating collaboration between **network engineers, security teams, and service managers** to drive project execution.

CERTIFICATIONS

- Pursuing CCIE (Cisco Certified Internetwork Expert)
- CCNA (Cisco Certified Network Associate)
- CCNP (Cisco Certified Network Professional)

WORK EXPERIENCE

Nov'2023 to
Jun'2024

Technical Specialist

Hexaware Technologies, Mumbai

Role:

- Led the implementation and configuration of SD-WAN solutions, ensuring seamless integration with existing network infrastructure and optimizing network performance.
- Conducted in-depth network assessments, collaborating with stakeholders to design and deploy customized network solutions aligned with business requirements.
- Monitored and optimized network performance, leveraging advanced diagnostic tools to proactively detect and resolve issues, ensuring minimal downtime.
- Created detailed network documentation, including configurations, procedures, and troubleshooting guides, ensuring compliance with industry standards and facilitating knowledge sharing.
- Collaborated with cross-functional teams, aligning network infrastructure projects with organizational goals while fostering teamwork and innovation.

PERSONAL DETAILS

Date of Birth: 2nd January 1990

Languages Known: English, Hindi

- Provided technical mentorship to junior engineers, offering guidance on troubleshooting, configuration, and best practices to boost their professional growth.
- Implemented security best practices and risk mitigation strategies, ensuring network integrity, reducing latency, and optimizing bandwidth utilization for better efficiency.

Achievements:

- Successfully led the NBS Project in Swindon, UK, achieving 30% reduction in incident resolution times and enhancing service reliability.
- Recognized for exceptional performance in managing complex network configurations, leading to improved operational outcomes and client satisfaction.
- Developed and implemented a training program for new hires, enhancing team capabilities and fostering a culture of continuous learning.
- Achieved a commendation for contributions to project delivery, showcasing a commitment to excellence and innovation.

**Sep'2022 to
Nov'2023**

Associate Manager HCL Technology, Noida

Role:

- Managed network operations, ensuring compliance with service level agreements (SLAs) and optimizing service delivery processes for improved efficiency.
- Led strategic planning and execution of network projects, aligning technical initiatives with business objectives to drive organizational success.
- Facilitated communication between technical teams and management, ensuring transparency, collaboration, and seamless project execution.
- Conducted risk assessments and developed disaster recovery plans, boosting network security and minimizing downtime.
- Implemented best practices for incident management, improving response times, service reliability, and overall quality assurance.
- Analyzed emerging IT trends and technologies, providing strategic insights to support decision-making, innovation, and future project planning.

Achievements:

- Recognized for exceptional leadership in managing cross-functional teams, fostering collaboration and driving project success.
- Developed a comprehensive training program for team members, enhancing their technical skills and contributing to overall team performance.
- Achieved a commendation for contributions to the organization's strategic initiatives, displaying a commitment to excellence and innovation.

PREVIOUS EXPERIENCE

**Dec'2021 to
Aug'2022**

**Senior Service Reliability Engineer
British Telecom, Gurugram**

**May'2020 to
Dec'2021**

**Service Operation IP Engineer
Nokia Global India Services, Pune**

**Jul'2018 to
Apr'2020**

**Network Engineer
Ericsson Global Services, Noida**

**Jan'2014 to
Nov'2017**

**Associate Engineer
HCL Infotech Limited, Noida**
