

Mobile:91-7073022291

Total Exp: 12 Years

Present Address:

Pune,MH

Designation: Transport FM Engg. (Optical Transmission)

Duration: From June. 2024 to Till Date

Company profile (Huawei Telecommunication india Ltd)

Company profile (Tata Communications Ltd)

TATA COMMUNICATIONS LIMITED is a leading National as well As international long distance Services provider.

Designation: Tx DWDM NOC Engineer

Professional Objective:

To associate with an esteemed organization, which gives me an opportunity to implement my skills, enhance my knowledge in latest technologies, and to be a Team player to grow with the organization.....

Experience Summary: 12 Year

Present Employer : -1. LTIMindtree Ltd. as Optical Transport FM Engineer of Microsoft AZURE Optical Project DWDM ,OTN (June, 2024 To Till Date –IN Notice Period.)

2.Reliance Jio Infocom as L2 Support Operation Engineer DWDM ,OTN ,Fiber ,MW/UBR,IPMPLS (March, 2015 To Nov.2023

3.Huawei telecommunication india Ltd. on behalf of GI Staffing solution Pvt.ltd. As Project Engineer (Vodafone Access Project) (March, 2014 to Feb.2015)

4.TATA Communications Ltd” on Behalf of LOBO STUFFING SOL.LTD As Huawei DWDM NOC Engineer. (Nov.2008 Feb.2014)

Technical Summary:

Role & Responsibility: LTIMindtree Ltd:- (Microsoft Optical Project)

Optical Operations of DWDM/OTN (FM profile)

Equipment - ADVA DWDM and MOLEX

And Fiber Faults.

Role & Responsibility: Reliance JIO:-

- Provisioning different Ckts and Creating traffic between exchange to exchange.
- Ring Shifting, Ring Splitting and Node insertion in Ring.
- Planning for STM Ring Bifurcation in case of Bandwidth Choke ,1G to 10G and 10g to 20 and 100G.
- Worked on SDH, PDH, DWDM, NGWDM & ASON technologies for JIO Access and CORE network operator in India.
- Network designing and implementation including installation, acceptance testing (ATP) and commissioning of transmission equipment's Network expansion, hardware & software up-gradation, testing and constraint analysis of in-service SDH & DWDM equipment's
- Performed various Acceptance Tests on SDH & DWDM equipment's such as receiver sensitivity, optical launch power, optical power amplifier gain

Education

B.E. (Electronics and Communication)

University Of Rajasthan

Personal Data:

Date of Birth : 01/07/1983

Sex: Male

Nationality: Indian

Marital Status: Married

Home Town: Jaipur

Languages Known: English and Hindi

Passport No .G3124756

test, insertion loss test for multiplexers and de-multiplexers, frequency deviation test, channel insertion loss, OSNR accuracy of boards, traffic recovery test, FEC gain test, board level protection switching, SNCP/MSP protection tests, E1 testing, link stability test.

- Working on CISCO routers-920,903,901,9100

EQUIPMENTS HANDLED:

- **Alcatel PSS-32 & PSS-4, CIENA 6500 ,CISCO ASR,NCS 540 and 560**
- **MW Transmission NEC and CG**
- **IPMPLS BGP/OSPF/ISIS –CISCO Routers**

Role & Responsibility: Tx NOC. (Nov.2008 Feb.2014)

- Handling traffic outage of SDH & DWDM equipment at Network Operation Center in co-ordination with field engineers & re-routing the traffic in Major network events.
- Generating outage and network availability reports on daily, weekly & monthly basis which include reports of daily O&M activities, weekly fiber loss report, and Weekly & Monthly vendor-Customer meet reports, Equipment & cable performance report on Monthly basis.
- Escalation of the problems through an escalation matrix & ticket opening with Huawei TAC.
- Monitoring of Network during Planned Events in coordinating with Fiber team.
- Link Uploading in NMS (T2000 and U2000) and developing Cross-Connections.
- Versions up gradation, software patch installations in NMS & in equipment whenever required.

EQUIPMENTS HANDLED:

- **Huawei DWDM - 1600G,6800,8800**
SDH – OSN 1500G
10G,40G& 100G Tech

2. Tata communication Ltd. As an (O & M) Engg. June 2009 to Nov.2011

- Operation & Maintenance of VSNL, NLD Fiber in which OFC fault finding, Link loss budgeting, Splicing of Optical fiber Cable NLD route, MAN route.
- OTDR (Optical Time Domain Reflectometer) testing OFC. ②OFC splicing (Termination, Straight, branch joints) as per drawing
- Restoration of OFC faults, Equipment failure, infrastructure faults with Zero deviation from laid benchmark.
End to end link testing on monthly basis as per demand of client
- Acceptance testing new SDH, DWDM Rings, DXC.
- Maintaining the DWDM power readings & proactive maintenance for any upcoming loss, this may affect the links.
- Operation & maintenance of SDH/DWDM equipments e.g. Huawei, ECI, Alcatel, Ciena (STM-1, STM-4, STM-16, STM-64).

- Experience in O&M Activities Integration, Card Addition, Upgrading, and Commissioning of DWDM and Transmission Equipments Fault Rectification, Alarms, DWDM/SDH Up gradation.
- To manage routine alarms in the network.
- Fault monitoring, Fault reporting and Fault rectifying from NOC and attending it by remote assistance.

- Maintaining critical spares in site and ensuring quality of spares.

- Assignment of Service Orders related to OTM/OLA/OADM of DWDM HUAWEI Equipment sites and timely closure of the same in Clarity.
- Installation, Commissioning, Acceptance Testing and Troubleshooting of PCM Primary Multiplexer, PDH (2Mb/s, 8Mb/s, 34Mb/s, 140Mb/s) and SDH (STM-1, STM-4, STM-16, STM-64) Transmission equipments. Integration, Commissioning, and acceptance testing of SDH Equipment from various vendors.

Software Tools:

- LCT T2000 , U2000 for Huawei Optix BWS 1600, OSN 6800, 8800, OSN7500.1832x8, 1832x16, 550, RTN 950, 910
- OSA
- Splicing Machine
- Optical Time Domain Reflect Meter. (OTDR)
- Power Meter, Laser source

Human Competence:

- Team work: Ability to work as a part of a team and lead a small team within area of responsibility.
- Communication: Good communicator.

Declaration

I hereby declare that all the information mentioned above is true to the best of my knowledge.
