Education

Kamala Institute of Technology and Science, Bachelor of Technolgy in Electronics and Communication Engineering 2021 – 2025

- CGPA: 6.7

Shivani j.r college, 2019 –2021

- CGPA: 8.1

Alfred Nobel E/M High School, 2009-2019

- CGPA: 9.2

Projects

VOICE RECOGNIZING ELEVATOR SYSTEM

- Developed a smart elevator system using Arduino Uno that responds to voice commands for floor selection. Integrated voice recognition module to identify spoken floor numbers, enabling hands-free operation. Enhanced accessibility and convenience for users
- Engineered a voice-activated elevator solution utilizing microcontroller technology and speech recognition modules, transforming traditional elevator controls to prioritize hands-free accessibility and user-centric design.

PRECISE LUNG CANCER PREDICTION USING RESNET-50 DEEP NEURAL NETWORK

- Implemented a deep learning model using ResNet-50 to accurately predict lung cancer from chest X-ray/CT images. Achieved high accuracy by leveraging transfer learning and image preprocessing techniques, contributing to early diagnosis and improved patient outcomes.
- Engineered a scalable pipeline integrating advanced image preprocessing and transfer learning techniques with the ResNet-50 deep neural network, driving improvements in diagnostic accuracy and supporting early lung cancer detection initiatives.

Technical Skills

Programming Languages: C, Java,Python,html,css

Databases: My SQL

Certifications

Cisco Python essentials by cisco

IBM Python for Data Science,Coginitive AI

Isro AI/ML Geodata Analysis

Languages Known

Telugu, Hindi, English
