Professional Summary

Entry-level Network Engineer with a strong foundation in LAN/WAN, TCP/IP, routing and switching, IP addressing, subnetting, DNS, DHCP, VLANs, and network troubleshooting. Hands-on experience with Cisco Packet Tracer and Wireshark through academic projects. Familiar with Windows, Linux, and basic network security concepts including Firewall, VPN, and IDS/IPS. Eager to contribute technical skills and continuously learn in a Network Engineer or NOC Engineer role.

Technical Skills

- Networking: LAN/WAN, TCP/IP, OSI Model, IP Addressing, Subnetting, Routing & Switching, VLAN, DNS, DHCP, NAT, Network Troubleshooting
- Tools: Cisco Packet Tracer, Wireshark
- Operating Systems: Windows, Linux (Basic)
- Security: Firewall, VPN, IDS/IPS (Basics)

Internship

- Cybersecurity Intern – Interns Veda
- Developed a password strength checker using Python.
- Implemented validation and real-time password feedback.
- Strengthened understanding of secure coding and cybersecurity best practices.

Projects

- **Enterprise LAN Network Design and Configuration Using Cisco Packet Tracer**

Designed and configured an enterprise LAN with routers, switches, VLANs, DHCP, and inter-VLAN routing. Performed connectivity testing using ping and traceroute.

Tools: Cisco Packet Tracer, TCP/IP, VLAN, DHCP

- **Network Traffic Analysis and Troubleshooting Using Wireshark**

Captured and analyzed TCP, UDP, DNS, HTTP, and DHCP traffic to identify connectivity issues and understand packet flow.

Tools: Wireshark, TCP/IP, Windows

Education

B.Tech in Artificial Intelligence – Chadalawada Ramanamma Engineering College (2022–2026) | CGPA: 7.8

Intermediate (MPC) – Vidyaniketan Junior College | 59%

SSC – BR High School | 90%

Certifications

- Cyber Security – InternsVeda
- Cyber Security Ethical Hacking – Data Valley
- Python Programming – ExcelR

Soft Skills

Problem Solving • Quick Learner • Adaptability • Communication • Time Management
