Career Objective

Recent Electronics and Communication Engineering graduate with foundational programming skills in Java, Spring Boot, and web technologies seeking a Software Engineer role. Completed hands-on projects demonstrating ability to develop and maintain scalable applications and familiar with application development lifecycle. Eager to support process improvements and collaborate in IT services delivery, applying strong communication, critical thinking, and time management skills to contribute effectively in a fast-paced environment.

Education

Kamala Institute of Technology and Science	
B. Tech Electronics and Communication Engineering	2025
Kakatiya Junior College	
Intermediate MPC	2021
ZPHS Chelpur	
Secondary Education	2019

Projects

College Management System

- Developed a College Management System using Java, Spring Boot, and MySQL, implementing CRUD operations for students, faculty, and courses, ensuring efficient data management.
- Designed and implemented a responsive user interface with Thymeleaf and Bootstrap, enhancing user experience and accessibility, leading to increased user satisfaction.

Intelligent Medicine Box For Medication Management Using IOT

- Engineered an Intelligent Medicine Box utilizing IoT technology, enhancing patient compliance with automated medication reminders via ESP8266/ESP32, contributing to healthcare efficiency.
- Applied data analytics to improve medication management, impacting patient outcomes positively.

Skills

- **Programming Languages:** Java, Python
- **Frontend Technologies:** HTML, CSS
- **Frameworks:** Spring Boot
- **Database Technologies:** MySQL
- **Tools:** VS Code, Eclipse, Git/GitHub, MS Office, MS Excel
- **Processes:** Software Development, Project Management
- **Domain Knowledge:** Healthcare IT, IT Services Delivery

Certifications

- Java Full Stack Course in VINSYS IT Services Partnership by Generation India April'4 July'25 Complete Edu skills certification course.' GOOGLE DEVELOPER

- Java, Spring REST APIs, Git & GitHub, Command Line, HTML, CSS, JavaScript, Angular – Codecademy

Achievements

- Achieved NCC B & C Certificates.

Interests

- Exploring new technology tutorials on YouTube
- Cooking & Music

Languages

- Telugu
- English
