Pune- 411057

SUMMARY

Results-driven AWS Certified Solutions Architect with 6 years of experience in designing and deploying scalable, high-availability, and fault-tolerant systems on AWS. Expertise in cloud architecture, migration strategies, cost optimization and security. Adept at translating complex business requirements into effective AWS solutions while adhering to industry best practices.

KEY PROJECTS

- On-premises to AWS cloud migration.
- AWS cloud migration (vpc migration).
- IaC (terraform) implementation.
- ChatBot POC.
- BCP for MWAA service.
- tag base policy (IAM).
- Cost optimization by adopting server-less options (EMR, Redshift).

EDUCATION

Rajasthan Vidyapeeth University

Bachelor of Technology - B.Tech Computer Science (Distance Learning)
- 2017 (Maharashtra)

AWS SERVICES

- Analytic
- Application Integration
- Cloud Financial Management
- Compute
- Containers
- Database
- Developer Tool
- Management & Governance
- Migration & Transfer
- Networking & Content Delivery
- Security, Identity & Compliance
- Storage

PROFESSIONAL EXPERIENCE

Cloud Architect

Infocepts | 2024 - Present

- Architected and implemented scalable, secure, and highly available solutions on AWS, ensuring alignment with business goals.
- Designed cost-effective and performance-optimized architectures, leveraging services like EC2, S3, RDS, and Auto Scaling.
- Created and enforced governance policies using AWS Organizations and AWS Service Control Policies (SCPs).
- Develop and maintain cloud security best practices.
- Design and implement disaster recovery plans.
- Analyze and troubleshoot cloud infrastructure issues.
- Develop and maintain cloud infrastructure documentation.
- Design and implement cloud-based solutions for scalability and availability.
- Develop and maintain cloud-based application architectures.
- Design and implement cloud-based data storage and retrieval solutions.
- Design and implement cloud-based monitoring and logging solutions.

AWS Admin

Wipro, Pune | 2021 - 2024

- Monitoring hybrid environment on-prem and AWS Cloud infrastructure.
- Deploying managing and operating scalable, highly available and fault tolerant systems on AWS.
- Hands-on experience on Networking services like VPC, subnet, route tables, elastic IPs, endpoint services, NAT gateways, peering connections, virtual private network, direct connect & transit gateways.
- Live troubleshooting on networking connections on-prem and AWS.
- Hands-on experience on security services like network ACLs, security groups, site-to-Site VPN connections, IAM, certificate manager & WAF/Shield.

CERTIFICATIONS

- AWS DevOps
- AWS Certified Solutions Architect
- AWS Certified Cloud - Practitioner
- CCNP
- CCNA

SKILLS - NETWORKING

- Hands on router & switch
- Load balancer
- VPN
- MPLS
- ITIL Framework

- Other services like Ec2, route53, elb, s3, cloudwatch, cloudtrail, auto scaling.
- Good understanding AWS EMR, AWS Lake Formation and Spark.
- AWS-compatible ML Technologies understanding on Sagemaker Studio, Amazon ML Feature Store and ECR.

Cloud Engineer | Client Wipro

Impact Infotech | 2018- 2021

- Assisted in the deployment and scaling of EC2 instances for development and production environments.
- Configured CloudTrail and CloudWatch logs for auditing and monitoring AWS resources.
- Managed security groups, NACLs, and VPNs to secure access to AWS services.
- Collaborated with the development team to set up auto-scaling groups and load balancers.
- Automated routine maintenance tasks using Python scripts and AWS Lambda functions.
- Documented processes and provided training for new team members on AWS best practices.

Network Engineer

SunGard, Pune | 2017- 2018

- Initiated and managed network test facilities to verify network hardness and resilience.
- Primary responsibility includes configuring customer requested network changes to the environments of SunGard's Customer within SunGard Data Centers. These changes vary from being firewall NAT/ACL/VPN/Hardware Upgrade changes, MPLS configurationally changes on Juniper & Cisco platforms, Juniper.
- Routing & Switching Changes, DNS Changes to implementing new circuits for customers hosted out of SunGard Data Centers across North America and Europe regions.
- Analyze and suggest solutions for customer requirements in stipulated SLA timelines and earn customer trust.
- Document all types of changes planned and executed in Service Now ticketing system which is based on ITIL framework.
- Maintaining, verifying and modifying documentation on standard operating procedures and service request templates.

Consultant

Capgemini, Pune | 2015- 2016

- Skills: Network Monitoring Tools · Network Security · Networking

Technical Help Desk

Impact Infotech, Pune | 2013- 2015

- Skills: Networking · MPLS Networking
-
