Objective:

Enthusiastic and detail-oriented Graduate Engineer Trainee with one year of experience at “**KTV Edible Oil Pvt. Limited**”, specializing in [specific domain, e.g., process optimization, quality control]. Seeking to expand my expertise in the chemical industry by leveraging my hands-on experience and strong analytical skills to contribute to your company. Eager to further develop my knowledge and make a meaningful impact in a dynamic chemical environment.

Educational Qualification:

Course	School/ College	Board / University	Year of Passing	Mark %
B.Tech (Chemical Engineering)	Veltech Hightech Dr Rangarajan Dr Sangunthala Engineering college	Anna University	2023	8.2/10
HSC	S.K.Vidhiya Peedam Hr Sec School	State Board	2019	75
SSLC	S.K.Vidhiya Peedam Hr Sec School	State Board	2017	95

Strengths:

- Positive Attitude
- Technical Expertise in Chemical Processes
- Being Punctual, and Hardworking
- Laboratory Skills
- Problem-Solving and Troubleshooting
- Project Management
- Adaptability and Continuous Learning

Project:

“MANUFACTURE OF NEEM COATED UREA”

Neem-coated urea is produced by applying neem oil or neem cake to granular urea to create a slow-release fertilizer with added pest-repellent properties. The process involves mixing neem oil or neem cake with urea granules, ensuring even coating, and then drying or pelletizing the mixture. Quality control measures are implemented to verify uniformity, nutrient content, and effectiveness against pests.

Finally, the coated urea is packaged in moisture-proof bags and stored in a cool, dry place to maintain its efficacy.

Certification Courses:

- “**MATLAB**” course at Veltech Hightech Dr Rangarajan Dr Sakunthala Engineering College
- Successfully completed “**SIMPLE CHEMICAL**” training programme at Veltech Hightech Dr Rangarajan Dr Sakunthala Engineering College

Work Experience:

- 1 Year Experience as Graduate Engineer Trainee (GET) at KTV Edible Oils Private Limited, Gummidipoondi .

Responsibly:

- Commissioning & Startup: Played a key role in commissioning and startup of the new 1000 TPD edible oil refinery, ensuring smooth operation.
- Process Operations: Gained hands-on experience in operating and maintaining the plant using DCS technology.
- Manpower & Production: Assisted with workforce management and daily production analysis, contributing to the plant's successful ramp-up to full capacity.
- Production Optimization: Performed daily calculations and analysis of overall oil production, identifying opportunities to improve efficiency and yield, contributing to the plant's successful ramp-up to full production capacity.

Declaration:

I hereby declare that the information furnished above is true to the best of my knowledge.
